## Using PPC Screening Rooms

This guide lists the steps for basic operation of the Post Production Center (PPC) Screening Rooms. Always seek help from PPC staff when needed.

### General Overview

The PPC screening rooms are set up to accommodate a variety of functions:

- **Boxx Workstation:** Calibrated playback of DCPs and other media files
- **Blu-ray Player:** Screening Blu-rays and DVDs
- **Laptop:** Connecting a personal laptop for mirroring or extended desktop to the TV

### Playing Back DCPs and Other Media Files

To play back DCPs or other media files:

1. Switch the ONKYO receiver to the input labeled *Boxx*.
