Sony FS5 Settings Card

Last Modified on 09/18/2024 4:16 pm EDT

FS5 Settings

Before every shoot, you MUST set up and calibrate your camera. See settings list below.
Make sure to always reset your camera to the default Scene File (NYU default).
When in doubt, seek assistance to ensure you are using the proper settings.
Be sure to keep lens cap on when executing APR as camera powers up.
