Site-facing Vetted Contract Database

## Vendors & Rental Houses: Previously Vetted Agreement

All non NYU Contracts/Agreements must be vetted by Contract Review. Below is a database of downloadable contracts that have already been vetted and may be used. Any contract that is not downloaded from this list must be submitted for [Contract Review](#), which takes a minimum of 2 weeks. Note: Edits/Amendments to NYU's Agreements must also be submitted to Contract Review.

Note: Working with aggregator/intermediaries like **KitSplit**, etc. are not allowed.

### How to use this resource:

**Download the vetted agreement (Column E) to use with the rental house, having them initial any edits.** Be sure to read columns D, E, and F carefully to see if any issues in the contract have been flagged. Column D indicates whether or not anything needs to be addressed. If there are edits in the contract, they will be visible in the downloaded contract and must be initialed by the other party. In some cases, there are no edits in the contract but it is necessary to discuss an issue with them, which is explained in Column F.
